What are the risks of investing?

Risk indicator for the Betashares NZ Sustainability Leaders Fund[1]

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the Fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 31 December 2025. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this Fund.

How has the Fund performed?

	Past year
Annual return (after deductions for charges and tax)	-1.51%
Annual return (after deductions for charges but before tax)	-0.75%
Market index annual return (reflects no deduction for charges and tax)	-0.21%

The market index annual return is based on the annual return of the Solactive New Zealand Sustainable Leaders Index. Annual return graph

This shows the return after fund charges and tax for each year ending 31 December since the fund started. The last bar shows the average annual return since the fund started, up to 31 December 2025.

Important: This does not tell you how the fund will perform in the future. Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Betashares NZ Sustainability Leaders Fund are charged fund charges. In the year to 31 March 2025, these are expected to be:

	% of net asset value
Total fund charges	0.59%
Which are made up of:	
Total management and administration charges	0.59%
Including:	
Manager's basic fee	0.59%
Other management and administration charges	0.00%
Total performance-based fees	0.00%
	Dollar amount per investor or description of how charge is calculated
Other charges	Nil

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor[2]

Matthew had $10,000 in the Fund at the start of the year and did not make any further contributions. At the end of the year, Matthew received a return after fund charges were deducted of -$74.95 (that is -0.75% of his initial $10,000). Matthew also paid $0 in other charges. This gives Matthew a total return after tax of -$151.21 for the year.

[1] Market index returns have been used for the period 20 March 2020 (index inception) to 20 November 2024 as the Fund was launched on 21 November 2024. The risk indicator is based on the market index return up until 20 November 2024 and the Fund's actual returns post this date. As a result, the risk indicator may provide a less reliable indicator of the potential future volatility of the Fund.

[2] As the Fund launched on 21 November 2024, this calculation is based on the market index return up until 20 November 2024 and the Fund's actual returns post this date.
