

Generate attractive income from a portfolio of high-quality Australian corporate bonds

The Betashares Australian Investment Grade Corporate Bond Fund (NZD Hedged) provides exposure to a portfolio of investment grade fixed-rate Australian corporate bonds, hedged into NZ dollars.

Attractive income, paid monthly

The Fund seeks to provide investors with attractive monthly income that is expected to exceed NZ cash rates and yields on NZ composite bond exposures.

Diversification and defence

Fixed income investments can act as a defence when equities are not performing well. Investment grade corporate bond returns have tended to show a low correlation with shares, and therefore have the potential to mitigate the effects of sharemarket drawdowns.

Invest in bonds intelligently

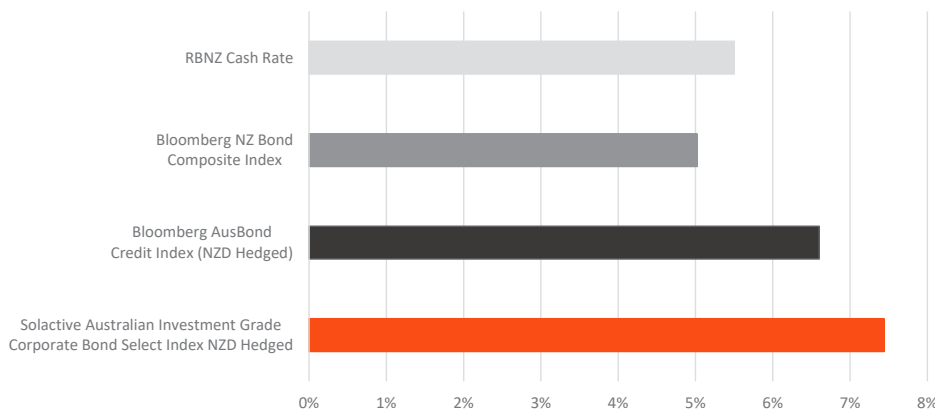

The Fund selects bonds based upon expected returns rather than debt outstanding, seeking to avoid shortcomings of traditional debt-weighted indices and provide higher returns.

Currency-hedged

The Fund is currency-hedged to the New Zealand dollar, substantially reducing the effects of currency fluctuations on returns.

Yield comparisons as at 19 July 2023 (% p.a.)

Source: Bloomberg. Past performance is not an indicator of future performance. Yields shown are Yield to Maturity per Index. The Fund's index yield is variable and may be lower at time of investment. As at 19 July 2023 (% p.a.). Yield information does not take into consideration Fund specific fees and charges. The Funds inception date was 4 July 2023.

How to use the Fund in a portfolio

- A core part of a fixed income allocation.
- A complement to composite or government bond investments.
- A complement to cash or floating rate bond allocations.
